**MARKET WAS IRREGULAR**  
New York, Aug. 24.—Considerable irregularity developed in today's fairly active stock market session, but, taken as a whole, evidence that the control of the market as a whole, continues to be in strong hands.

Unfavorable overnight developments in the rail strike situation did not result in any extensive liquidation of carrier shares, although many issues yielded slightly at the start because of general uncertainty. However, the market would do. Substantial support set in, however, and the market steadied, most declines being fractional nature. Northern Pacific climbed up to a new high of 125, year, buying of the stock being based on reports of an early resumption of the per cent. dividend and expectation of oil development in its Montana land holdings.

United States Steel duplicated its year's high price, with sympathetic advances in shares of some of the independent companies, presumably in response to reports of higher prices and profitable oil operations. Crucible closed at a net gain of 2 points.

Heavy liquidation continued in the stocks of shipping companies engaged in the Atlantic trade in anticipation of a sharp cut in passenger fares. International Mercantile Marine preferred broke more than 3 points, with smaller declines taking place in the common, Atlantic Gulf and American Ship and Commerce.

Tobacco Products A moved to higher ground on the announcement that the stock had been placed on a 7 per cent. basis. Dome Mines sold at the year's best price, 100, after a long decline. Studebaker also registered substantial advance in expectation of a new earnings statement for July.
